Creating an Appendix with Document Links: Attorneys can select a subset of the docket entries for a district case to create a PDF version of the docket sheet with the selected documents appended. When the Docket Report is run in Create Appendix Mode, a user can choose whether the selected PDF documents should be appended to the docket sheet or whether hyperlinks to those documents should be included instead.

New Radio Buttons will appear on the docket report to add hyperlinks to appendix or append pdf documents in appendix. See the arrow below for the location of the radio buttons.
