Subject: Support for the changes to Policy 206 and Rule 10

After reading the information that was submitted to the Supreme Court for consideration of Policy 206 and the increase in rates for transcribers and other amendments/changes that are being requested, I am in agreement with their suggestions. Transcribing is very time consuming, especially if it is a difficult case and a lot of research is needed to complete different portions of testimony.

By not allowing us to charge for the electronic copy, we are basically working the main original transcript for free, and then only receiving compensation on "paper copies" to the attorney(s) involved in the appeal.

I am in support with the suggested changes requested by the Recording Group for the District Courts.
