Subject: NOTICE OF COMMENT Supreme Court No.20160436

Ms. Miller,

I am writing in regards to the NOTICE OF COMMENT Supreme Court No.20160436.

With this e-mail I urge the approval of Qualified Attorneys from Outside North Dakota, so that the water protectors stand a chance for a fair trail and adequate representation.

The water protectors are protecting all of OUR water, water affecting millions. Please keep this in mind, it is humanity and environment in danger of collapse. Please consider what has happened in Corpus Christi, Texas just the other day affecting their drinking water, which led to complete lack of any drinkable/usable water aside from bottled water. That is the disaster the water protectors are trying to avoid on a much larger scale.

Thank you for your time and effort!

All my love!
Ally Young
