Subject: Fair Trail for water protectors

Dear Ms. Penny Miller;

I would like to ask your assistance in obtaining a fair trial for our water protectors. I understand the defense was denied a change of venue. The attorneys available to represent the defendants are stretched thin. Attorneys from out of state are willing to help.

I have seen the results of several hearings and know that the majority of judges in North Dakota are fair and just. I would like to ask your assistance in keeping these trials as fair and just as possible. I know you have no control over jury selection. However, without the change in venue, allowing out of state attorneys will help to ensure our water protectors receive as fair a trial as possible.

Sincere regards,

Kimberly Eddings
