To: (SUP) Clerk of Court Office
Subject: Temporary right to practice law

As an out of state resident all persons should be afforded the civil rights to counsel and a speedy trial. If the jurisdiction cannot do so then I believe the state should allow non-residential attorneys to practice and leniency should be given as to passing the bar exams and any other requirements of state practicing including undo costs associated with travel. Another solution could be to hire retired and out of state judges to help.
