Dear Ms Miller

Im writing to you in reference to the Water Protectors that need Lawyers from outside the state , mostly the states they originally reside in . We know the Public defenders there are over whelmed with the number of cases going on , and the burden of tax payers , Please allow people to attain out of state legal aid . To ensure a peaceful and positive resolution to this situation without burdening the tax payers in your state and county more

Thank you for your time

Sincerely
Kathy Korolden
