Subject: Allow representation

Dear Penny Miller,

I respectfully request your assistance in obtaining a fair trial for all the Water Protectors. Please allow for out of state lawyers in the cases involving Water Protectors to facilitate a lawful defense of the people in these proceedings.

I understand that the number of people being represented is large and puts undue strain on your state's ability to properly represent these individuals and that some of them are from out of state. I understand that out of state lawyers have shown an interest in helping to facilitate the defendants. Please allow this request to move forward so that they can be represented and have a fair trial.

Thank you very much,
Patricia Hyde
