Subject: Additional attorneys

Dear Ms. Miller. I am writing to ask that you allow a significant number of out of state attorneys to assist with the heavy case load generated by the massive amounts of arrests on those known as Water Protectors. As I understand, there is nowhere near enough attorneys available to represent the large number of cases and truly, those who are instate are likely negatively biased. Please consider allowing as many willing, out of state attorneys as seems necessary to assist in this process so things can be settled in a timely and fair manner.

Thanks you,

Kim M. Knebel
