STATE OF NORTH DAKOTA

My name is heather michael of Ohio, I also lived in North Dakota for a short time, I always bragged to everyone about what a great state it was. I left because of the noticeable division between the people and the Native Americans, it bothered me deeply. And now what I have seen , native Americans were hosed down by police, we already took everything from the native Americans, I ask we leave them alone.

I'm also upset that Ohio state troopers were brought in from my state, when we already have a shortage and much more serious issues that we need our police for.

Now, since police can be used from different states on this issue and then it seems the balance would be then to allow attorneys from different states to be recognized, the other argument is this is a National problem. ND used police from multiple states siting it as a federal issue, Native American religious sites were destroyed.

The oil company is foreign owned and the attacked Americans, mainly Native Americans.

Please protect the Native Americans. They are an endangered species. No one stopped Jackson from preforming the trail of tears, it was an unpopular ideas of his, please this time protect the Native Americans. Let them used their attorneys from other states. Thank you for your time.
