Subject: Petition to Permit Temporary Provision of Legal Services by Qualified Attorneys From Outside North Dakota

To: Penny Miller, Court Clerk of the Supreme Court of North Dakota

Ms. Miller, as a citizen who is concerned for the well being of Native American citizens and the water they and many others depend on for survival, and wary of the safety of the proposed oil pipeline which real benefit to the United States I seriously doubt, I am also concerned that in the best interests of the United States the very best attorneys available to the Water Protectors organization should be utilized for their benefit, regardless of the State in which those attorneys are registered. As the Water Protectors are able to engage such excellent attorneys either for consideration of services rendered or for pro bono work, it is IMPORTANT that some out-of-state attorneys be capable of rendering services IN North Dakota for the ongoing lawsuit(s). I urge you and the Court to register my sincere opinion that Justice can only be sufficiently served by allowing such out-of-state attorneys as the Water Protectors can retain to operate within the framework of the Laws of North Dakota.

Sincerely,
Mark Stapleton
