

Amended Request for extension on time.

Supreme Court No. 20220240

Supreme Court No. 20220193

Comes now Appellant Mark Rath and requests an extension on time to file his Appellant brief. Rath is still looking for supporting case law for the present issues with the district courts use of the prefilng order which is taking time. Presently Rath is concerned he will not have the full arguments completed by October 18, 2022, but is confident he will and can have the arguments completed by October 21, 2022 and there for asks for a 4 day filing extension for the briefs due in this matter.

The hold up in are just finding supporting cases for (1) Rath's constitutional argument(s), (2) Rath's belief the court is abusing its authority in its use of the prefilng orders, and both Judges in both cases modifying the prefilng order without due process of law. Etc.

Mark Rath.
